

# Privacy Policy

*Last updated: 30 March 2026*

TripData is developed and operated by CodeBooth (Pty) Ltd. This privacy policy explains how we collect, use, and protect your information when you use the TripData mobile application.

## Information We Collect

- Location data — TripData collects GPS location data continuously in the background while the app is active. This is required to detect and record your vehicle trips. Location data is stored on our secure servers and used solely for trip tracking and logbook generation.
- Account information — Your name, email address, and password (encrypted) when you register.
- Vehicle information — Vehicle details you enter manually.
- Trip data — Routes, distances, addresses, and classifications you assign to trips.
- Device information — Device type and push notification tokens for app notifications.

## How We Use Your Information

- To record and display your trip history
- To generate SARS-compliant logbook reports
- To send trip-related push notifications
- To manage your account

## Data Storage

Your data is stored on secure servers. We do not sell or share your personal information with third parties. Trip data is retained for as long as your account is active.

## Payment Information

TripData does not process or store any payment information within the app. Plan management and payments are handled securely via our website at [tripdata.co.za](https://tripdata.co.za).

## Third-Party Services

TripData uses the following third-party services:

- Google Maps — reverse geocoding for address lookup
- Expo / Firebase — push notifications

## Your Rights

You may request deletion of your account and all associated data by contacting us at [hello@codebooth.co.za](mailto:hello@codebooth.co.za).
